## RELATIVE STOCK MEASUREMENTS

A quick word about basis weights and how stocks are measured. In the US, stock is measured by the weight of 500 sheets of that particular grade (i.e. Cover or Text). This can be confusing because the size of the actual sheet weighed differs from grade to grade! This is why a 100# Text weight paper is lighter than an 80# Cover weight.

The chart below shows the grades of paper in order from lightest to heaviest. All of our papers are high quality. If you are not sure what weight to use, please email our support team before you place your order.

	Stock ID	WEIGHT	NOTES		
Text Weight	Light	001	70# Text - Uncoated	10% PCW, FSC Certified, Acid Free	
		002	70# Text - Matte	FSC Certified	
		003	70# Text - Gloss	FSC Certified	
		004	80# Text - Uncoated	10% PCW, FSC Certified, Acid Free	
		005	80# Text - Matte	FSC Certified	
		006	80# Text - Gloss	FSC Certified	
Cover Weight	Medium	007	100# Text - Uncoated	10% PCW, FSC Certified, Acid Free	
		008	100# Text - Matte	FSC Certified	
		009	100# Text - Gloss	FSC Certified	
	Heavy	010	80# Cover - Uncoated	10% PCW, FSC Certified, Acid Free	
		011	80# Cover - Matte	FSC Certified	
		012	80# Cover - Gloss	FSC Certified	
		013	100# Cover - Uncoated	10% PCW, FSC Certified, Acid Free	
		014	100# Cover - Matte	FSC Certified	
		015	100# Cover - Gloss	FSC Certified	
		Heaviest	016	130# Cover - Uncoated	10% PCW, FSC Certified, Acid Free
			017	130# Cover - Matte	FSC Certified
